# Audit Management

Manually auditing contracts costs enterprises up to 9.2% of annual revenue due to:

⏱ **Time-consuming efforts to reconcile and identify high-risk contracts**

💲 **Missed chances to optimize payment terms and pricing**

📄 **Limited visibility into contract exceptions**

Automate Your Contract Lifecycle

Use your data in Snowflake to automatically identify and address high-risk contracts

Process contracts 20 days faster

Reclaim up to $500k in lost revenue annually for every $10M in contract spend

Eliminate millions of wasted consultant spend

How it Works

1

LLMs automatically ingest contract data and identify costs, risks, and opportunities
(Excel, CSV, PDF, Word)

ARCTIC

2

Document AI analyzes ingested data, flagging costs, risks, and exceptions

Examples:
- Short payment terms
- PCII compliance
- High-risk clauses

3

ML automatically initiates corrective workflows to mitigate and measure resolutions

Examples:
- Revise payment terms
- Terminate contract
- Increase SLAs

The Easiest Way to Automate

Elementum is the only business automation platform that runs natively inside Snowflake. Use any AI, ML, or LLM to replace human analysis and automate complex business processes. Entirely no-code.

🚀 **Fast:** Deploy in hours, not months

☁ **Connected:** Access Snowflake data instantly

✨ **Smart:** Pre-integrated with Snowflake Cortex AI/ML and LLMs
